Issue: Jan 2019

COMPANY HISTORY

Founded in 1926 as a retail shop called Harry R. Mygrant Glass & Glazing, **Mygrant Glass** is now a third generation business. It was first passed to son Robert F. Mygrant in 1945, who transitioned the business to wholesale in 1952 and grew it to as many as 6 locations by 1966. Grandson Michael R. Mygrant took over the one remaining location in 1979, and is now general manager of 70+ locations nationwide, making **Mygrant Glass Co., Inc.** the largest independent wholesale distributor of auto glass and supplies in the United States.

PHILOSOPHY

Today, **Mygrant Glass** is headquartered in Hayward, Ca, and is committed to maintaining the highest standard of service and the most extensive inventories possible. We stock both OEM and generic brands from over 30 different factories around the world in an effort to provide our customers with the broadest choice of high-quality glass in the industry.

YOUR SUPPLIER, NOT YOUR COMPETITOR

We choose not to compete with our customers. We do not own or operate any retail glass shops, nor do we carry architectural or commercial glass – we are focused solely on being the **BEST DISTRIBUTOR OF AUTO GLASS and SUPPLIES.**

UltraWiz® "The Tools Pro's Use"

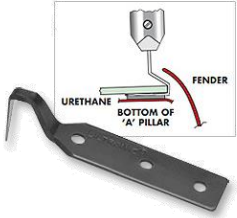

"The blades that permanently changed the industry" are manufactured by A.N. Designs Inc., one of the first companies to use compound angles in the blade design of windshield removal tools. The purpose of this design is to give the blade sharper angles, making it easier for technicians to find "the sweet spot" during cutting which minimizes time and maximizes precision in the windshield removal process. Made from high-quality steel, our windshield removal blades are put through a special coining process that thins the metal. They are then heat-treated to meet our high standards.

But our innovation doesn't stop with windshield blade design. Our engineers at UltraWiz® are continually creating and improving all of the tools windshield removal technicians need in their arsenal. Our new Quick Release Long Knives allow you to change blades without tools. And our Patented Lever Knives combine comfort and gripping power with unlimited adjustments and easy blade changes.
